

INTRODUCTION

Copy-trading is the process of connecting automatic cloud transfer of Forly Capital's trades. The client receives profits similar to those credited to the company's account, to their accounts opened with any licensed top broker.

Automated copy-trading with Forly Capital Group is the best solution for both newcomers and experienced investors.

Forly Capital Group is:

- International group of companies under SEC (Securities and Exchange Commission) license;
- Own cryptocurrency;
- Own server structure;
- Own financial and investment literacy educational products;
- Proprietary copying tools;
- 3 years of successful trading history in stock, currency and crypto markets.

ADVANTAGES OF "FORLY CAPITAL"

1. Forly Capital's team of professionals works with the Company's account, taking into account any risks of each transaction, maximizing profits, and minimizing any losses associated with the risks.
2. The Client has sole access to his/her own investments and has the ability to withdraw his/her investments at any time.
3. Automated copy-trading. This means that the Client's account automatically performs operations similar to those of a professional team. It gives an opportunity to gain profit without any effort.
4. Passive income. Clients do not need any knowledge, time, technology, or equipment to make money with Forly Capital. Clients do not need regular monitoring and do not have to worry about the movement of investments in financial markets.
5. The interface is convenient for everyone, both for creating an account in the system and for working with the Forly Capital platform.
6. Transactions can be tracked 24/7 online.
7. Possibility to invest from 100\$ minimum, which decreases any risks and allows the clients to get familiar with the system using the minimum amount of money before increasing the investments.
8. Individual approach to each client. Possibility to make transactions in three financial markets: stocks, currencies, and cryptocurrency. The company develops investment strategies depending on the situation of each client.
9. Payment for copy-trading is 30% of profit, i.e. funds are deducted after the profit is fixed, which motivates the team and ensures the safety of Clients.
